LANGUAGES

- Sinhala
- English

TECHNICAL SKILLS

- React.js
- JavaScript
- HTML5 & CSS3
- Firebase
- PHP & MySQL
- Git & GitHub

PROFILE

I am a motivated third-year Software Engineering undergraduate at CINEC Campus with a strong foundation in web development and software engineering. I have hands-on experience with React.js, JavaScript, Firebase, PHP, MySQL, HTML, and CSS through academic and personal projects. I enjoy developing responsive, user-friendly applications, solving technical problems, and applying my skills to build practical software solutions. I am eager to take on new challenges and continuously expand my technical expertise.

EDUCATION

- **BSC (Hons) in Software Engineering**

  CINEC Campus - (2024 - Present)

  - Current GPA : 3.60
  - Currently pursuing undergraduate studies in Software Engineering with practical experience in web development, databases, software engineering, frontend development, and application design.

- **G.C.E. Advanced Level Examination (Physical Science Stream)**

  Central College - Piliyandala 2021/2022

  - Combined Mathematics: C, Physics: S, Chemistry: S

- **G.C.E. Ordinary Level Examination**

  Central College - Piliyandala - (December 2018)

  - Results: 7 A passes, 2 B passes

PROFESSIONAL AFFLIATIONS

Active Member 2026 - Present

IEEE in Cinec

Contributing as an active member & finance team member in IEEE supporting youth leadership initiatives and chapter activities.

SOFT SKILLS

- Problem Solving
- Teamwork & Collaboration
- Communication
- Time Management
- Adaptability
- Critical Thinking
- Attention to Detail
- Quick Learning

REFEREES

Ms. Maduwanthi Kiriwandarage
Senior Lecture / Deputy Head of the Department
Faculty of Computing
CINEC Campus

RESEARCH & PUBLICATION

Samadhi Hansika (Co-Author), "University Student's Stress Detection and Reduction through a Personalized Mindfulness Mobile Application"
7th CINEC International Research Symposium (CIRS), CINEC Campus, 2026.

PROJECTS

SiteFlow - Heavy Logistics Tracking System
3rd Year Software Engineering Group Project | 2026 – Present |

- Developing a construction logistics platform with real-time vehicle tracking, GPS/geofencing, AI-assisted features, and logistics management.
- Tech: React.js, Node.js, Express.js, PostgreSQL, Socket.IO

KUNULINK – Smart Waste Management Platform

- Developed a role-based waste management system with GPS pickup locations, request tracking, collector workflows, dashboards, and reporting.
- Tech: React.js, Firebase, Firestore, Leaflet, Recharts

ParkLink – Smart Parking Reservation & Management System | Ongoing

- Developing a smart parking system with user authentication, parking reservations, slot availability, and double-booking prevention.
- Tech: React.js, Firebase, Firestore, React Router

National E-ID System – Digital Identity Management

- Developed a digital identity system with citizen/admin portals, authentication, email OTP verification, digital ID features, and multilingual support.
- Tech: React.js, Firebase, EmailJS, i18next, Chart.js

I hereby certify that all the information provided above is true and accurate to the best of my knowledge.

Sgnd. K.M.S.H.Priyadarshani
